EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, between the title and "Background of the invention," the following paragraph was inserted:

-- This application is a 371 of PCT/FR05/00716, filed March 25, 2005. --.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited on the PTO-892 each discloses a flexible membrane.

The following is an examiner's statement of reasons for allowance: the prior art of recording considered as a whole fails to teach or suggest a flexible membrane comprising at least one thin layer wherein **a plurality of notches are formed, pressing points for mechanical actuating elements being located between the notches, the actuating elements being designed to locally deform the membrane with which they come into contact at the pressing points.** (bold language emphasized)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588.
